Outline of the work

We will conduct a thorough analysis of your circumstances to determine the most appropriate application for you to pursue, while also exploring any other potential applications that may be suitable. Our team will provide comprehensive advice on the Immigration Rules requirements, assess your eligibility, and offer guidance on overcoming any obstacles if you do not initially meet the criteria. We will carefully evaluate the supporting evidence you have submitted and assist you in obtaining additional evidence, such as medical records or witness statements, if required. Our experienced professionals will handle the preparation and submission of your application, along with all necessary documents and evidence, and will provide clear advice if the Home Office requests an interview, including discussing the option of accompanying you. Furthermore, we will provide advice on the potential outcome and outline any further steps that you may need to take.

It is important to note that our fees do not cover any refusal of your application by the Home Office, nor do they include advice or assistance in relation to any appeal, unless specifically stated in your client care letter.
